A Woman's Library. The oddest library any woman possesser is made up of newspaper clippings, perfectly catalogued and arranged by a professional librarian. There are thousands upon thousands of these slips taken from newspapers the world over, and the owner of this bureau of ready reference is a journalist, who has been making her colections for her own convenience. Given almost any topic to write on, she is apt to find a mass of important facts and the key to many others among the envelopes in which her unbound library is gathered and docketed. The whole of it only occupies a corner cupboard in her writing oom, and as an adjunct to newspaper work she advocates these clipping colctions for wemen, who can, with the aid of scissors, glue pot and a little disretion, make for themselves similar in-

The Old-Time Warming Pan.

Warming pans are as much a thing of the past as spinning wheels, and are seen in modern bomes, like the latter only as quaint ornaments. Yet it is not so many years ago that they held at important place in the domestic economy and were the source of otherwise unother women and not for men, but don't attainable comfort in the icy chambers you believe it. Not one woman in one where breath congealed and the sheets hundred would care a belt ribbon on the beds were like glaciers. A lady who is now elderly, though not yet old, tells of the perforated brass warming pan of her childhood, and says when company was in the house a little sugar was sprinkled over the coals in the warming pan in their honor. Pepys premiration is inborn, and is, so far as sented Capt. Beckford "with a noble silver warming pan" in 1669.

Possibilities of Cretonne.

The possibilities of cretonne are quite as boundless as the ocean, and the other day, when the writer was shown into a room all blushing with pink cretonne, over which tumbled big cream tinted roses, she thought she had stepped into Flora's bower. And so she had, but gray in a solid color will be found to be not the one where "roses and geraniums a charming background for showing off grew in loving intimacy," but where one's possessions. Otherhwise it is rather this practical Flora had used cretonne cold in appearance, but properly lighted for wall covering, bed spread, table roundings it scarcely could cover, window curtains, bureau set and even for frilly frames for pictures, which represented dainty Watteau men

Street Opera in Brooklys.

To the Editor: I am a Brooklynite and thoroughly sympathies with "Sufferer." I have to work all night for my living, and therefore need sleep and rest ing the day. Street venders are a nuisance their Eldorado. What Single Tax Aims At. To the Editor:

"Inconsistency" will write to the Manhattan Single Tax Club, 31 East Twenty-seventh street, for a copy of chapter iz. of Social Statis-tica, therein he will find that Herbert Spencer munity, whose presence and wants make such value. It is not Government, levied on land values, irrespects of improvements, would bear heavily on holds into the market, with the result that economic rent would fall, yours included. Besides this, all the taxes you now pay on the products of your industry would be included in this diminished rent, leaving you a gainer by the difference in the rent and the taxes you now pay. Under the Single Tax, if you owned land and rented it out, you would practically be nothing but a tax collector for the Government; but if you worked land, either as owner or tenant, you would be a gainer by saving considerable in rent to say nothing of being a member of a prosperous and happy community. ANTONIO BASTIDA.

To the Editor: The ear-splitting shouting of the street venders of three blocks. Generally two or three and some boys accompany each wagon, and when they all join in the chorus the noise becomes stekening. You would imagine that they were suffering from cramps, solic or cholera, and that they were shouting from pain. The streets that are mostly frequented by the gang are to the Editor:

To the Editor: In your issue of Oct. 31 "Farmer" states that to Jour leads "600 acres for 12 an acre" and nets setween "\$1,500 and \$1,500 a year." He wants some one to explain how the single tax would berefit him. Not knowing what capital "Farm-er" employs I do not know whether his seemingly large returns are fair or not. Assuming nat they are, and even that he would have to pay \$2 an acre for exclusiev possession under the single tax, he would still gain vastly. He could not be turned off the land at another's will; his tax could not be increased for additional improve-ments; the tax would be removed from everyhing he eats, wears or uses, and the 22 an acre including himself) instead of one idle landlord. To Make Sunday Only Partially Dry. To the Editor: Why cannot our salcons be open on Sundays be-
